
BOBBY ORR'S SKATES

This puzzle is a **Masyu**, and can be solved using the rules given in the code packet once you figure out which symbol corresponds to which pearl color. The Canadiens logo is the only one that appears in a corner, which means it must represent the black pearl - white pearls cannot be in a corner since they need to have a turn before or after them, not on.

Once the top grid is solved, you can overlay it onto the bottom grid to begin the extraction. But what letters are you looking for? The key is in the flavor text: "*the **Bruins** are forced to make **quick turns before and after** they have the puck*". So, you're looking for letters that are on a cell where the direction changes before and/or after a Bruins symbol in the loop.

T	K	F	)	Y	A	I	A	"
D	H	M	N	C	R	E	@	Y
^	L	"	#	(	A	D	C	X
K	^	Z	M	X	A	J	K	I
Z	K	O	T	N	L	A	*	S
W	O	?	*	V	B	X	I	&
S	A	#	H	C	M	L	M	V
D	B	O	W	C	E	)	^	\$
M	X	O	W	L	(	E	B	V

Reading these in order along the Masyu path will yield the answer, "**SAMANTHA WHO?**"
(The quotation marks aren't important, though.)
