

FRANCES PERKINS'S PICKET SIGN

For this puzzle, you'll be using the pride flags code key. As this initial meme (present in *Teen Titans* but not *Justice League*) indicates, the stripes on pride flags that have the same number of stripes as the identity they stand for have been split up and made into new flags to spell words related to the LGBTQ+ community. Because some colors repeat on a flag, and because some identities have overlapping letters, there's not a strict 1-to-1 correspondence between color stripes and letters.
